

2009 IKC REPORT

2009 saw the reintroduction of CIK racing in Australia. After a couple of false starts it was great to see round one of the series get under way at Newcastle. There are many people that need to be thanked for their efforts and to thank them all runs the risk of forgetting someone but the main players have been Peter Galvin, Richard Erdman and Ian Black for allowing us to be a part of the pro tour. Thanks guys as the series would not have got off of the ground without your hard work. I would also like to especially thank the competitors and teams for showing the confidence to commit to the CIK series.

The future:

The future of the CIK Series here in Australia will revolve around the steady growth of the current KF2 category and the introduction of the KF3 category for juniors. A private promoter to assist the current committee will also enable the series to grow and be promoted further.

In closing thankyou to all who have supported CIK competition here in Australia in the past and also to everyone who will support the concept into the future.

Regards,
